Technical Projects

- **Students Book Tracker** - GitHub Demo Established JavaScript asynchronous requests with ES6, ES8 syntax to retrieve data from API created within Rails backend.
- **Countries App** - GitHub Demo Retrieved countries API to create CLI app where the user can receive information about countries such as population and capital.
- **BookMark** - GitHub Demo Developed library with Rails framework where users can add books and notes that are associated to each other. Established custom validations to make application secure.
- **Vacation Planner** - GitHub Demo Assembled application with Sinatra gem with full CRUD actions and RESTful Routes, SQLite database system, with signup and login forms.
- **School Search** - GitHub Demo Designed application with React.js framework to search teachers associated with school. Established Redux for state management.

Experience

Restaurant General Manager | Taco Bell - Merrick, NY | 09/2016 - 08/2019

- Accomplished being the youngest store's general manager in New York at age nineteen.
- Established a positive, learning, and motivational environment for 40 employees.
- Developed a cross-training program to increase productivity and efficiency.
- Promoted scholarship programs to current employees and new hires.
- Trained other general managers, shift leads, and store employees on safety procedures and customer service.
- Coached shift leads on development of strong communication, customer service, and conflict resolution skills.
- Exceeded quarterly evaluations on food safety with an average of 94% within 2018.
- Invited to participate with other general managers in advanced professional development at Irvine Headquarters.
