Full-Stack Software Engineer

Before becoming a software engineer, I was a General Manager at Taco Bell, leading and engaging employees to achieve team and business goals. I developed skills such as communicating efficiently, team development, and problem-solving skills, all relent to coding and working on a team of other developers. Currently building a React project to help people pass the U.S. citizenship test. I am motivated by the opportunity to learn and apply new skills every day in technology.

TECHNICAL SKILLS

Ruby, Ruby on Rails, HTML, CSS, Bootstrap, jQuery, JavaScript, Git, Github, Node.js, Visual Studio Code, Express.js, SQL, PostgreSQL, MongoDB, React, Redux, MS Office, API, Sinatra

TECHNICAL PROJECTS

The Guild Education Replica - Github | Live
Built replica of a Fortune 1000 company's application to manage education assistance benefits.
- Improved background image to be responsive with custom CSS.
- Created feature using PostgreSQL and Rails to enable students to share their experience of courses completed and register for new courses.
- Utilized slim gem for views for faster processing and increased speed on application.
-

Daily Journal - Github | Live
Developed journal application where users can create new journals, edit, and delete them.
- Established CRUD actions to establish full functionality to create changes to a blog.
- Integrated MongoDB as a relational database system to save journals.
- Used EJS Partials to allow features to be reusable.
- Enabled custom routing using Express.js with GET and POST requests.

WORK EXPERIENCE

Flatiron School   Remote
Technical Coach   05/2021 - Current
- Inspire students to build their confidence as they work through difficult coding challenges.
- Guide students through debugging their code while working through Flatiron's online curriculum.
- Reply to questions about lesson content, programming concepts, and environmental issues.

Taco Bell   Merrick, NY
Restaurant General Manager   09/2016 - 08/2019
- Established positive, learning, and motivational environment for 40 employees by celebrating staff and establishing daily recognition.
- Exceeded quarterly evaluations on food safety with an average of 94% in 2018.
- Coached shift leads on development of strong communication, customer service, and conflict resolution skills.
